3. Provides a fairly complete picture of each boy's background on a single sheet.

4. Serves as a file for helping get a boy into college.

With the approximately 25 bits of information in each file, and a four-year span in which to add more information or make changes, we get to know a great deal about the boys who play for us, and can therefore make an honest report to an interested college coach.

Also of vital importance is that this folder saves us a great deal of time, and as any high school coach will attest, "Time is something we just don't have."

## Saturday's Hero

Sunday's hero. Monday's hero. In fact the TROY® WX® 25 washer-extractor is a hero 365 days a year—saving you up to \$900... and maybe more.

How? It's easy. School athletic gear can be done in less time than it takes to receive, sort, count, handle and send it to a commercial laundry.

What about your towel inventory? It's cut in half. You don't have to stock-up to replace the ones in transit. Dirty towels at morning's end are clean

and ready for the afternoon. And best of all, no special labor is needed. A student or custodian can easily do the wash. Our WX 25 does everything, automatically. Towels, uniforms, sweat suits, socks—you name it. This compact unit loves heavy loads.

As for maintenance costs, Troy is a rugged individualist. We've practically wiped repairs clean off your books.

Send the coupon and find out how our hero can play on your team.
